Profile

I am a creative mind and analytical thinker seeking a career as a developer. My studies, diverse working experience as well as my years as a copywriter and concept developer in a digital agency have taught me a lot about working in a structured, efficient and independent manner and bringing great ideas to (virtual) life. Finding original solutions is a strength of mine and I like planning the best ways to see projects through to completion. I have an eye for innovative design whilst keeping a flawless user experience in mind. I recently took a deep dive into coding, because it merges the utility of logic with the beauty of language. This not only fascinates me, it is also symbolic of the way I solve problems. As a strong team player I enjoy taking on an organising role in groups and inspiring others comes naturally to me.

Work Experience

Concept Developer, Station AG, Zurich, Switzerland | 2015 – 2019
After working as a copywriter for a while, my talent to conceptualise solutions for complex websites and technical processes has been proven in various projects for big Swiss brands. Apart from my work as a concept developer, which in essence was aligning design visions with technical feasibility, I had a leading role within an agile, self-organising team and its wellbeing as a scrum master.

Junior Frontend Developer, Station AG, Zurich, Switzerland | September – December 2019
Since the Le Wagon bootcamp I had the chance to contribute code for important projects as well as to practice Vue.js when building components for a boilerplate for future agency projects.

Education

University of Zurich, Switzerland | Bachelor of Arts | 2009–2013
German Language & Literature, Film Studies, National Economy

Le Wagon Amsterdam | Ruby on Rails Coding Bootcamp | July–September 2019
This summer I attended a 9 weeks, on-site, 10 hours a day coding bootcamp. The curriculum included learning Ruby on Rails, HTML5, CSS/Sass, Bootstrap, JavaScript, jQuery, SQL, PostgreSQL, MVC architecture, OOP, git, GitHub, and Heroku.

Skills

HTML/CSS (SASS)
JAVASCRIPT
VUE JS
RUBY
RUBY ON RAILS

Languages

German	native speaker
English	fluent in both spoken and written English
French	very good command
Italian	very good command
Spanish	good command
